Along with *Stockwell* being identified as an area for regeneration in the same plan this will lead to many changes to our physical and social environment over the next *15-20 years*. All of which will impact positively and negatively on existing communities and businesses.

Key developments include: -

Redevelopment of Nine Elms Market site
Development of tall buildings
New American Embassy

The **London Plan** is current being reviewed by Mayor **Boris Johnson**. The **Stockwell Neighbourhood Forum** has an opportunity to contribute our views to this review and also feed into **Lambeth's new planning framework** for our area.
